

Anna Stojčev-Młyńska

Architect / Interior & Product Designer

anna@acos.design

Anna is a cofounder of ACOS – a creative design group formed to deliver individually crafted projects. In her working ethics Anna encourages a holistic approach to the design process, with big attention dedicated to details. She enjoys working closely with people, having a strong believe that architecture is highly multidisciplinary and collaborative venture.

After graduating from University of Arts in Poznań, she moved to London where she obtained Architecture PgDip Professional Practice (RIBA Part III) at University of Westminster. She is a registered architect in Poland (IARP) and United Kingdom (ARB). She has experience in delivering both ambitious and complex high value designs, and also projects where aspirations needed to be fulfilled within a constrained budget. When

working with Latis Homes (LDN, UK), Anna played a key role in delivery of prestigious residential development 20GQS in London, that required both creative thinking but also strategic and technical knowledge. Prior to that she worked with Andy Martin Architecture (LDN, UK), being involved in very unique and sophisticated residential and retail interior designs.

NA ZAMIEJSKIEJ

Residential
Stupsk / PL
2019

Na Zamiejskiej is a residential fit out for a private client, aspiring to deliver a unique and organic living space for a single professional. Project revolves around the concept of sliding & folding walls in the main living space that encourages flexible space arrangement to suit ones needs. Coherent material palette based on natural veneer, stone and earthy tones, formed modest yet sophisticated interior with elegant feel. This is complemented by carefully selected materials and details, such as brassware,

KUKA

Residential
Ohrid / MK
2019

Kuka is an extension to the existing family house, located on the mountain hill, overlooking stunning Ohrid lake. It comprises a modest contemplation space, carved out from the mountain. Large rooflight over, frames the space from above, forming strong architectural accent and offering ever-living impression of lights and shadows, initiated by trees growing in the garden above.

20 Great Queen Street

Residential
London / UK
2016-2019
with Latis Homes

20 GQS is a striking blend of historic detail and contemporary style in the heart of the West End, represented in the design of four very unique and sophisticated apartments. Context of this project required exceptional design, coordination and management skills, but also comprehensive understanding of regulatory and budgetary constraints.

USTKA CAFE

Restaurant
2020
Ustka / PL

Project for a restaurant pavilion located on the west bank of Ustka harbour, which is an industrial, but also more secluded & intimate part of this tourist city. The proposal was inspired by the concept of the lighthouse translated into modern architectural interpretation. Introduced solutions revolve around modest steel frame form, wrapped with the organic semi-transparent fabric, offering a sculptural modern elegant building, that becomes an elegant lantern when illuminated at night.

OLIVOGELO

Gelateria
2014
London / UK
with Andy Martin Architecture

Olivogelo is a petit gelateria located in the heart of Belgravia, LDN. The proposal was inspired by the craft of ice cream making as well as Sardinian pottery and embroidery, where the Client originates. This is represented in the design of bespoke hand-made ceramic tiles, used as a feature decoration component.
